

For Sale: French Double Bass ca. 1850

I am selling my french double bass. It is my main instrument but I have decided to move on to another career field leaving classical auditions and freelancing not as my top priority. I have used this instrument professionally in the Virginia Symphony, West Virginia Symphony, Richmond Symphony, Williamsburg Symphony, and Roanoke Symphony. This a large flat back double bass that is capable of contributing lots of power to the orchestra. It needs to find a new home with someone who will be doing lots of gigging and/or taking professional auditions.

Since I have owned the bass I have had a new fingerboard installed by Lisa Gass that extends down to a high E and a graphite endpin. A bridge with ebony adjusters and leather bumpers that match the color of the bass installed by Mike Shank. I have also just purchased a brand new Mooradian soft case that comes with the bass.

String Length: 41 1/2 in.
Asking: \$28,000
